## TRAFFIC PORTION AFFECTED BY PERMIT

Length	Width	# of Closed Lanes	# of Hours Closed
Vehicles/Equipment Left on Site?	Yes	No	Unattended for:      Weekdays      Weekends

## TERMS AND CONDITIONS FOR ENCROACHMENT PERMIT

1. It is understood that any permit by virtue of this request is revocable at the pleasure of the City of Westfield and that the same shall be voided if the following terms and conditions are not fulfilled by the Permittee. The Permittee hereby agrees to observe all requirements of the Encroachment Standard Ordinance and comply with the conditions set forth by the MUTCD Rulings and Revisions.
2. The undersigned shall notify the Director or his representative a minimum of 72 hours prior to the time that work is to be performed. The undersigned will furnish placards identifying equipment, flashers, barricades and/or other warning devices at the construction site. When two-way traffic is confined to one lane, flagging personnel shall be required. Permittee must follow Chapter XVII of Title 29, Code of Federal Regulation, Part 1926 known as Safety & Health Regulation for Construction.
3. In cases where the work authorized by the permit will cause major interference with traffic flow on streets, Permittee shall provide a uniformed traffic officer when requested by the Director or his representative to provide traffic control at the construction site. Work shall not be performed on any major arterials, streets and thoroughfares during rush hours or peak hours of vehicular traffic flow, unless in case of emergencies.
4. The Permittee shall not create a hazardous or unsafe situation at construction sites, which would cause injury or damage to vehicular and pedestrian traffic. The Permittee shall not leave unattended open cuts unprotected overnight or during weekend periods. Permission to use temporary steel plates or any authorized substitutes shall be requested at open cuts or construction sites. The Director or his representative shall be notified of these steel plates or substitutes by the Permittee.
5. All construction equipment and/or vehicles left unattended for any length of time shall be parked in locations as to not create hazardous and unsafe situations to vehicular and pedestrian flow. The construction equipment and/or vehicles shall be parked in such a manner as to not restrict sight distance to vehicular traffic. **All construction equipment and/or vehicles are prohibited from driving on named trails, neighborhood perimeter trails, and sidewalks.**
6. The Permittee shall hold harmless and indemnify the City of Westfield from, for and against any claim of any person in tort, contract or otherwise arising out of the act or omissions of the Permittee, their agents, representatives, servants, contractors and the latter's subcontractors, whenever such acts or omissions or any rights or performance or exercise thereof of the Permittee arise under this permit from alteration, modernization, replacement, operation, maintenance, change or removal of any part or portion of the public right-of-way, or facility thereof. All existing utilities must be identified and located prior to all boring operations. Permittee shall be responsible for consequential damages to residents and businesses who are damaged during outages caused by these untimely accidents experienced by poorly coordinated utility borings and construction activities in the City right-of-way.
7. The Permittee shall stipulate the type of materials and method of repair utilized to close any open cuts, subject to the Director or his representative's approval.
8. The Permittee shall begin work within 45 working days from the date of application approval, and work must be completed within 60 working days of the application approval. Any construction and/or work not completed by this date shall be grounds to nullify and void this permit. Re-application would then be necessary.
9. The Permittee shall be required upon completion of construction and/or work to notify the Director or his representative for inspection and verification. The construction and/or work shall be inspected prior to being accepted by the City of Westfield as being complete. The Director or his representative shall perform the inspection.
10. Upon the completion of all open street cuts, permanent patches shall be in place no later than 20 working days from the temporary patch inspection date. Any construction work or repair measures utilized to close any open cuts made under this permit that are found to be unsatisfactory shall be corrected within 10 working days by the Permittee. The Permittee shall be responsible to maintain and repair any and all open cuts granted by this permit for a period of one year upon final acceptance, unless the City of Westfield and/or other utilities, contractors or subcontractors or other parties remove, damage, modernize, replace, change any part or portion of the public right-of-way or facility or thereof granted under this permit.
11. Upon completion/acceptance by Director or his representative as builds must be provided (print and CD form) within 30 days of completion.
